J. C. HAIGHT, H.C., THE ONTARIO EQUITABLE LIFE & ACCIDENT INSURANCE COMPANY

WATERLOO, ONTARIO

November 21st, 1921.

The Canadian Daily Newspapers Association, Excelsior Life Building, Toronto, Ontario.

Gentlemen:-

The high records and gratifying results obtained by the Ontario Equitable during the past year, have been made possible, in part, through the assistance of Canadian newspaper publicity.

To have found that judicious advertising has had for us a more than general result. In reply to particular advertisements we have had as many as a source of replies in one day, from every frortines in the boatines, resulting in a large proportion of cases in the actual closing of banises.

In many instances our Agents have sent us applied cations for policies received as the direct result of an advertisement run in their district newspaper.

We have placed our adverting under the course that the public would recognize the value of moneraticipating insurance offered with attractive accident features. The response has confirmed our judgment, and given us tangelle evidence of the value of newspaper publicity, which we shall continue to use as an arm in our besiness.

Yours very truly,

SCT/BWG .

A Life for A Dollar

N^{EVER} was human life so cheap as it can be hought to day in the famine districts of Russia. \$1 will save a child's life by providing food for a month.
\$10 will save ten children from starvation.
\$500 will establish a kitchen and feed 100 children until the next harmet.

Will you save a life with a dollar? Could any other dollar you have or ever hope to have-bring such soul-antisfying returns?

Wouldn't you sleep better—feel better—be better—if you knew that a dollar of yours saved a child's life?

Only—anything you do to save the children of Russia in their desperate fight against death from starvation, mussi-be done at once. Won't you send the dollar NOW? A children life depends on it.

If would, under such circumstances, be expected it he millionaire and his class would be the mainstay of this flexilar branch of the revenue. He pays his share, no doubt officials having the collections in charge showing a zeal and wouldy in following those who should pay that should soon be them souls for the English commissioners. The greatest debute to the total, however, is the employee, the salary and the total, however, is the employee, the salary are the \$45,381,000 of income taxes collected in 1921, as to more than a quarter of it, from the class, which the total the salary are to the contribute the least. The third of Flanance gave the collections by classification as

All oth	iers										1	5,918,000

The presumably wealthier classes probably figured among the payers of \$40,841,000 under the business profits tax, which generally come out of the same pockets from which the income tax is dipped. Taking this tax by itself, however, there are two reasons for the prominent part taken by the employees. There are many of them, and the law is designed to prevent many of them from escaping their share. The development of commer-cial, industrial and transportation corporations has brought into the ranks of employees, many of them highly paid, men into the ranks of employees, many of them highly paid, me-who under an older order would have been partners in or own ers of businesses. The change is part of the evolution of busi-ness that has helped in a tremendous way to the developmen of this continent. The employee, therefore, may pay mor-mantly his full share of the tax than do members of the other than the continent of the continent of the continent of the concations; but his pre-eminence as an income tax payer the result of his numbers chiefly.

risks that Canada-is not desirous of immigration." It is certainby unfortunate if such an erroneous impression exists in this
months country. The competition between the different states
are the empire to secure these suitable British emigrants is keen
and if the stream is diverted, we shall certainly be the lossers and it to stream a currency, we shall certainly be the losser long, deliberate or accidental, we shall certainly be the losser On the other hand, it is a fact that this country is not prepared so absorb any great addition to its industrial population, which a bready greater than can comfortably be provided for. Re-ports of industrial functs, as Sir William declares, may have been exaggerated; there is little apparent evidence of ungest for the simple reason that special measures have been adopted in this country to carry the unemployed over the period of de pression, which, it is confidently hoped, is merely a temporary But the problem exists, as we all know. And it is just as well that those on the other side of the Atlantic should know that it does exist. It would not be fair to them or to us to enourage them to come over under false pretences

Unquestionably, as the Duke of Devonshire declared, there plenty of room here for the right kind of agriculturist. Can-la has vast tracts of virgin land awaiting the advent of practical cultivators; Canada's industrial growth, too, is only in its infancy; but it is possible to be overgorged with workers. When the revival takes place, there will be no lack of skilled laborers ready and anxious to avail themselves of the opportun-ities afforded. It is necessary to "make haste slowly" in this matter, and immigration requires careful and intelligent selection. If wrong ideas prevail in the old country with regard to Canada, they should certainly be removed; but it is unfortun ately true that, so far as the industrial market is concerned, it is necessary to apply the brakes just at present.

STRIKES AND TREASON." 41 AT AT

There has feen started at Charlestown, West, Virginia, a trial which introduces a new issue into the labor "waz" that it gives for the labor that when the labor that it is the who undurate to discuss the reliation between employer and employee. The United Mine Worten last year began astrike which, before it was finished is the labor that is the labor to th called an irray which carried on a compaign of tomorism du caused as trany, which carried on a campaign of terrorium, dur log which arms were seized, provisions appropriated; trains or the railway commandeered, prisoners captured, men who re-sisted the stritters abot and "trainor" executed. Counsel for the prosecution declared that at one time between five and sis abousand miners and their sympathiacre were in Logan county facture the inflinary forces of the state. Men in the service or. West Virginia were murdered because they were in the service of the state and exerting themselves in the course of duty to preserve order. There have been happenings of like characteria connection with other strikes, but hardly any in which this variety and the characteria connection with other strikes, but hardly any in which this var was more opined dende. There is, it seems, no denial of the criega alleged. Murder and robbery with violence were come only just the polyeer minded men among the strikes, strength one properties of the control of the criegal and the cr

THE PASSING OF NICK CARTER.

Frederick Van Rensselaer Dey has passed. One of th cleverest and most popular of fiction producers, Carter made: on both sides of the Atlantic and elsewhere. We have re Nick Carter and enjoyed him again, and yet again. It can said that fully ninety per cent of the Nick Carter stuff mada hit with not only boys and youths but with those also who has left their early manhood far behind. Carter was well read by university men—as by bar-tender and the elevator boy. States man and billosophers gravitated to "Nick" for a complet-change of literary scene. The highbrows may differ vehement by in regard to this, but the fact remains the same that the Car the study had the circulation, and circulation spells sales with a

What audience "Nick" aimed at, it is hard to say, but h got there all the same. He was an author who wrote to pleas-himself. One is apt to fall back on the theory sometimes tha most of the new novels are merely turned out in the hone tha some of them may interest somebody. Few authors or publish ers can hit the bullseye every time. Carter's markmanship wa "Commercially be adopted the tactics of the scatter-gur usting that some of the shot would wing that queer bird-ablic opinion. He actually winged the multitude with both arrels. Carter's intelligence was of a high order; his logic was well conceived, and he provided much excitement for his patrons. His numerous friends will murmur a prayer for thi misguided mortal who met death by taking away his own life worst enemy will wish that he may rest in peace.

International Specials

The greatest collection of value in clothing ever brought to Belleville is offered in a great sacrifice sale that will break all records. In one day we are going to sell a season's suits because we can offer you the quality of a national tailoring house at the most amazing price ever quoted in Belleville-below half the cost of manufacture.

One Day Only SATURDAY May 6th

For this Great One Day Sale we have secured the services of our head office Sales Manager, an expert in choosing clothing for gentlemen and the Chief Designer of Tailor-Craft Clothes, one of Canada's greatest tailors, who will personally attend and measure all orders.

Secure This Special Service

Men of Belleville:

Were you ever offered clothing before at less than half the cost of manufacture? No. But that is the price at which we are going to sell you suits and overcoats on Saturday. The local manager of Tailor-Craft, Limited, has made special arrangements with the preat manufacturing company which he represents, to scure all their models, returned C.O.D.'s and unclaimed orders from all branches in Canada. These are tailored from the finest materials in a great variety of patterns and will constitute the greatest cloth-ing sale ever placed before the men of Belleville and the district.

We Know

is the lowest in Belleville.

THE OUALITY-

is that always maintained by this great international cloth-ing company. All wool goods, the tailoring perfect and trimmings, linings and all other details completed with the greatest care.

THE OPPORTUNITY-

is yours. Come and Compare. Buy if you wish. In any event, you are entirely welcome.

FOREIGNERS GAINING

The king of thing which must be expected as a natural re-solution of immigration have which are insufficiently restrictive at yar at the nationality of the newcomers is concerned, is to be seen in the returns of the New York City. in the returns of the New York City Census committee, just which the committee is the committee of the comm and, terrang, track, Austro-Rungarians and Germans, arrang ad in the arder of their numerical abrength. It is stated tha between the years 1910 and 1920 there were losses in the city's English, Scotch, Welsh, German, Swiss and Irish stock, while the increase of Russian and Italian residents was greater by 12

cest. Lean the births of native whites of native parents amending on these statistics, the Winnipeg Tribune remarks is is rather a portentious situation as affecting the metroppile. of an English-speaking country. Even if we add the native Americans the Irish, English, Scotch and Canadia strains, the hold of English-speaking peoples upon New York sty remains the moral control of wealth and inborn affinity with the original institutions of the country, and not the physi-seal control of a majority of the population."

There is one important consideration to be taken into account when making deductions from those figures, however, and that is the peculiar position of New York, which gets its additions to population very largely from abroad. It would not do to be a may refer a conclusions on these statistics regarding the national racial tendency of the whole country. But all the national racial tendency of the whole country. ee is no doubt that this increase of foreign influence i the great American metropolis is something well calculated to excite the apprehension of English-speaking inhabitants There is a clear warning for Canada in New York's experience

An Assured Income for Life

He was a thoughtful man, and an affectionate husband and father. His income ran about \$6,000 per year. His insurance policies totalled \$5,000.

"Suppose anything happened to you, how long do you suppose \$5,000 would last us?" His wife put the question gently. It was a difficult one to put.

"Five thousand dollars at the present rate of going would last this family just one year!" replied her husband.

"And then what?"

There was no answer, save thoughtful all-ence. But in that silence one thoughtful and affectionate man was converted to the idea of adequate insurance—insurance that would yield an income for life.

ifficulties in which the present Government has The culticulties in which the present Government has found itself in regard to the appropriation for military training use of its own making, inasmuch as the criticism of this session is no more than a repetition of views uttered by Liberal members and supported by their votes when in Opposition last year, says the Montreal Gazette. The Government's trouble is that all Liberals do not, with equal facility, forget and repudiate the an adverse to both, when equal racinty, torget after repolation to production previously, and recently, when by the party to which have belong. It is one of the penalties for a too broad interpretables—of the detailed of an Opposition, an interpretation based especially as the production of the penaltity of the production of the produ use searcy turns when might have to be made, and when a made, in accordance with administrative responsibility. Some members are not as richly endowed as the major type appear to be with the agility essential for the easy and successful negotiation of these turns. The disability is not alto-

her discreditable to them.

As to the appropriation itself and the necessity for the ur interrupted continuance of annual training, there may be room for argument. Militia men are perhaps the best judges of the advantages actually obtained from the training given. There can be no doubt that the annual camps were a factor of some importance in past years in popularizing the militia, apart from the benefits of the training acquired, but the holding of these camps merely as picnics might require some justification in time of financial stringency. If there is reason for maintaining the active militia, there is equal reason for maintaining such measures as will render that militia efficient, and if the annual training will have that result there is enough to be said for its con-

The opinion of militiamen as a whole seems to be that good thing. The cost has nearly doubled during the last de-cade, but it is relatively little larger than it was ten years ago, so that the amount estimated is one which cannot very well be reduced except by doing away, either partially or wholly, with the system, which it is intended to finance. The Government and the House are really being called upon to determine the and the House for really being called upon to determine the opselon as to whether the maintenance of the millist is worth while. Gigarni Clark of Burrard Inick has made a strong are-unt in the affirmative. The strong term of the con-tent of the content of the content of the con-world peace, despite the enormous ascrifice in blood and trea-ue, which was made. The Distantament Conference has built upon the foundation hald by the war, but it has not made wat impossible. There are death is as much the product of ex-plaince of the content of the content of the con-relations. It is to soon to conclude that war has cassed it, amplies among the possibilities or that sides will always be clear. The content is accordance to the second of the con-clear. The content is a second to a sit would have been terclear. The contention that Canada is not interly to be ancever by the saw war is just as good today as it would have been ter yours ago, and just as bad. If the Dominion had in fact attained the national status claimed by certain ambitious statesman of its behalf, the responsibilities from the standpoint of defence of its behalf, the responsibilities from the standpoint of defences build have become very much greater than they are now.

THE FERNCH RESERVATION.

I thocks at ILluyd George may vet get his way at Geona in the matter of the non-aggression part, through which he hope that the passes of Europe will be guaranteed for the next ten years. That France would agree to such a pact was, it was farred, bo much to hope for. But the French cabilet ha agreed—with a French reservation. Biggest April-Biggest Single Day-Lowest Prices-in Franklin History

During April, 1922, more cars were sold by the Franklin Automobile Company than in any pre-vious April in its 20-year history.

Following close upon this record, a new high mark for a single day's business was established Mon-day, May 1, when more new cars were put in the hands of owners by Franklin dealers throughout the country than during any previous one day.

Franklin prices today are at the lowest level they have touched in 16 years, with the exception of a 4-month period in 1916.

Built for Rugged Service in Canada

Canada's Standard Cars are built strong enough to withstand the more strenuous tests of Canadian highways and by-ways. Because of this fact McLaughlin-Buicks stand up better, and after years of service command a proportionately higher re-sale value than any other make of car. The Toll of Death

TEN MILLION CHILDREN in Russia are doomed to die in the slow agonies of starvation unless the people of Canada awaken in their generosity, and by gifts of food and money, enable the Save the Children Fand to prevent this horror.

The famine in the Volga region is the most appalling in recorded history. Whole populations are exterminated. Children—fatherless and motherless, homeless, with death stalking their steps—wander the highways and byways until they creep into some abandoned hovel to die.

Hundreds of thousands have died from starvation and neglect; but millions can be saved if food is dispatched at once.

Will you give something? Will you save a helplese child from starving to death? What you do give means little to you— yet it means the life of a child! 25e will feed a child for a week,

\$1.00 will ensure sufficient food for one child for a month. \$500 will establish a kitchen and feed 100 shildren until the next harvest.

We have been regular users of advertising space in most of the important newspapers in Camada for several years, be-cause we recognise the fact that mosh advertising is a most effec-tive and economical way to reach the millions of users of Imperial Oil product throughout Camada from Halifar to Vancouvers.

We manufacture and market in Gamada, a wide and diversified line of petroleum products. Imperial Polarina Motor Olla and Importal Premier Gamadia. Petroleum products in the Motor Iste, but we have, beatdes, lubricants for factory and fare paraces, homeshid aposities and many other lines. There is scarcely a farm, a factory or a home in Gamada in which are on which many Imperial products are not used throughout the year. Which many Imperial products are not used throughout the year. Big Warehouses at your Elbow

"No, I won't load up with a big stock" — said the enterprising but cautious dealer — "if they sell as well as we hope, I can easily get in touch with your house by Long Distance and order more of them."

Re-ordering by Long Distance makes it entirely practicable for dealers to carry small stocks, thus keeping down their capital investment, and yet not loss asless by being out of stock. The wholesaler's and manufacturer's warehouses are virtually at the dealer's elbow. The goods are often shipped the same day.

It also enables dealers to try out the novelties are new styles people have been reading about and are asking for, on which the margin of profit is usually greater than on staple lines. "Use the Bell to Sell"—and to Bay.

We are running this advertisement as an invitation to you to join our \$10.00 Get Acquainted Club, so read what we have to say. We have two wells in, and have our third, fourth, and fifth rells started. Our stock to-day is worth \$3.00 per share, brokers are listing it at \$1.50 to \$2.35.

We are offering for new stockholders to join us and then investigate. Ten shares NOW for \$10,00, not more than 100 shares to any one person or more than 1000 shares to any one family at this \$1.00 price

10 Shares \$10---50 Shares \$50---100 Shares \$100

Join us in this small way, then investigate our standing, our plans, etc., then, if you are satisfied, you can buy more stock at the prevailing price at that time. IF YOU ARE NOT SATISFIED will return your ten dollars on demand, if you make demand within thirty days from the time you send us the \$10.00.

Could You Ask For More? Dividends Guaranteed. Gusher Assured.

Our plans are to drill Ten Wells just as quick as money, labor and material can be assembled, and we honestly expect our stock to sell from \$100.00 to \$1000.00 a share as soon as our plans are

We are not a one well syndicate, but a thoroughly organized and going company, and expect to not only drill hundreds of wells as has been done by the Standard Oil Company, Sinclair Oil Company and others, but we expect to build our own pipe lines, and our own refineries and establish our own gasoline filling stations all over the country.

We have just secured an option on an additional thirty acres in the new gusher pool east of El Dorado where wells are coming in with a rear that can be heard for miles and are running wild

with an estimated production of five to twelve thousand barrels daily. One well alone of this size and we can pay dividends of 200 per cent. or more to our stockholders. We expect to first six wells on this lease just as quick as possible. We are offering a few shares of our stock at less than it's estimated value to enable us to move on a rotary rig at once and finish up our first gusher within thirty days from the time we start, and turn a roaring lion into our storage tanks and start paying dividends to our stockholders. One gusher on this lease means thousands to us all then each well drilled will add just that much more to our fortune.

SIX NATIONS TROUBLE

The storm which has for so long been brewing on the Six Katlons, reserve seems about to break, if any credence can be given boths, communication just received by the Indian chieftain. By that document "the sovereignty of the Canadian gova. 48 that decument "the sovereignty of the Canadian governet over the Indians of the Tucarror reserve" is proclaim-together with the intention of maintaining that authority, secessary, by force of arms. "The department of Indian iairs denies authorship of the ultimatum, and declares that so the sending Mounted Police to the reserve, as has been insided. There has been trouble, it appears, over the eviction to the processing of the processing the pr an Indian soldier from his farm on the reserve, through here to make his first payment under the Soldiers' Settle-nt Act. The council of the Six Nations placed an Indian ned Vice on the farm, but the Indian department, treating Vice as a squatter, sent a Brantford constable to evict him. The ment order, and Chief Deskaheh declares that they fight "to the bitter end" to keep Vise on the farm, regarding the incident, apparently as a test case of their claim to absolute jurisdiction in the matter of land settlement. It was this same chief who went to England personally to plead with the King for recognition of the Six Nations as allies of the British erown, and not subjects of the Canadian government, present disturbance will, no doubt, force the government to make a definite settlement of the question, since matters can-not drag on in their present most unsatisfactory state.

PRIZE LIST

HESE prizes will be given away for the best titles to the Orange-Crush Picture, shown above.

Eterybody is eligible. Men, women, boys, girk all are urged to name a title for this picture. Nothing could be easier. Do it now, while you think of it. It will be real fun—and you have a real chance to win First Prize, or at least one of the other valuable prizes.

Why this contest?

This is the first gun in the 1922 Orange-Crush campaign. This year you will hear lots about this drink, and about the companion drinks, Lemon-Crush and Lime-Crush. This contest is to get everybody thinking about the "Crushes" at the very start of Spring.

The picture here shown is by Norman Rock-well, the famous artist. It was painted espec-ially for Orange-Crush Company. Soon you will see it in beautiful colors, displayed wherever Orange-Crush is sold. Now we want a title for the picture.

At the close of the contest a committee of judges will decide which are the best titles submitted. The prizes are listed elsewhere in this advertisement.

Read these facts about Orange-Crush-they will help you think of a title: This is the The "Crusher" are prepared by Orange-Crush Co., Plant and Laboratorics, Chicago. In Canada: Orange-Crush Co., Ltd., Winnipeg. English Address, 47 Gt. Tower St., London, E. C. 3.

seventh year of this famous drink. It is the largest selling fruit-flavored beverage in the world, due to its purity, quality and deliciousness. Many imitations have arisen, but none has ever approached the original Ward's Orange-Crush. The flavors in Orange-Crush. Lernon-Crush and Lime-Crush are Crush, Lemon - Crush and Lime - Crush are genuine, obtained entirely from citrus fruits. Each delicious finished drink is a compound of fruit cils and fruit juices obtained from oranges, lemons or limes, finest cane sugar, U.S. certified food color, cattopa-ated water and citric acid (natural acid of citrus fruits).

Get busy now. Put on your thinking cap and think of a title for the picture. See the list of prizes. Read the simple rules. Send or bring your title without delay. You may win First Prize.

C.C.M. Bicycle Prices Reduced

"HURRAH, fellows: You don't need to hold off buying your new bicycle another day.

"C.C.M. Bicycle prices have been fixed for this season and they are right down to bed rock.

The 1922 C.C.M. Standard Adult Models are: \$15 Below "Peak" Prices \$10 Less than Last Summer

"This certainly gives us Canadian riders a generous reduction and a square deal. I'm told that bicycles of equal quality cost more in the United States than C.C.M. Bicycles do in Can-

"Remember, C.C.M. prices didn't ad-vance anywhere nearly so much as most products, so they hadn't as far to come down.

"And C.C.M. Bicycles are even better now than before the war

"You know, the best steels and ma-"You know, the best steels and ma-terials were reserved for war purposes, and the best mechanics put on war or-ders. Now, the best steels and materials are again obtainable, including English Scamless Tubing for C.C.M. Frames. The best mechanics are on the job again with their skill improved as a re-sult of the accuracy demanded in their delicate time fuse work.

A Nifty New Pedal "And, say fellows, they've put a new pedal—called the Gibson Pedal—on the 1922 Men's "The easy-running Tri-plex Hanger and the sure-acting New Hercules Brake are on the new models, too. No extra charge, either.

"The Gibson pedal has an Aluminum frame that looks like silver and won't rust. Wonderfully light, yet very strong. Some class to it!

"But I almost forgot to tell you the new low prices this year. They are only:

\$50 and \$60

"This means that a C.C.M. costs only about \$5 or \$6 a year, as a C.C.M. Bicycle easily gives 10 years of service. Many have given 15 years and longer."

THE GENOA CONFERENCE

The Russian situation remains the big problem at Genos but the report that Lloyd George has lost faith in the outcome must be taken with more than the proverbial grain of sait. He is the, fast man in the world to give way to despair. On the contrary, his optimistic temperament often carries him to a success which otherwise would have been impossible. It is hard to believe that with the big men of the economic world have been impossible. on the necessity of making the conference a success it agreed on the necessity of making the conference a success it can full be accomplish at least its main objects. The most difficult feature will be to arrange a pact for non-agression. As for Russia, he chief trouble is financial, not political. When a street car fare costs 5,000 roubles and a silk hat for the Foreign Minister to wear at Genoa 160,000 roubles it hardly needs argument to show the correctness of this view.

CRISP COMMENTS

Reports from various Canadian sources indicate a remark-able increase in building activities—all of which is pleasant proof of a return to more normal industrial conditions.

Like many other bouncing youngsters, "Babe" Ruth has had to have his tonsils removed. The operation should be the means of making it easier for him to talk back to umpires and othe officials with whom he may choose to disagree.

Many who have come within an "ace" of serious injury from recifies drivers will not agree with the proposed bill in-cluding jall for the third offense. They will be positive in their belief that it should start with the first.

Although 20,000,000 letters go to the U. S. dead letter of-ce each.year, how seldom, if ever, as the New York Herald marks, is an invitation to pay up or other unwelcome missives nown to go astray?

So many United States aviators have perished intely that might almost imply the existence of a suicide club.

Everybody & eligible. Men, worner, boys, this -all are unged to name a title for this picture. Nothing could be easier. Do it now, while you think of it. It will be real fun—and you have a real chance to win First Prize, or at least one of the other valuable prizes.

Why this contest?

This is the first gun in the 1922 Orange-Crush campaign. This year you will hear lots about this drink, and about the companion drinks, Lemon-Crush and Lime-Crush. This contest is to get everybody thinking about the "Crushes" at the very start of Spring.

The picture here shown is by Norman Rock-The picture liere shown is by Norman Rock-well, the famous artist. It was painted espec-ially for Orange-Crush Company. Soon you will see it in beautiful colors, displayed wher-ever Orange-Crush is sold. Now we want a title for the picture.

At the close of the contest a committee of judges will decide which are the best titles submitted. The prizes are listed elsewhere in this advertisement.

Read these facts about Orange-Crush-they will help you think of a title: This is the

seventh year of this famous drink. It is the largest selling fruit-flavored beverage in the world, due to its purity, quality and delicious-ness. Many imitations have arisen, but none has ever approached the original Ward's Orange-Crush. The flavors in Orange-Crush, Lemon-Crush and Lime-Crush are TISM, Lemon-Crush and Line-Crush audenuine, obtained entirely from citrus fruits.

Such delicious finished drink is a compound of fruit is and fruit juices obtained from oranges, lemons of mes, fittest cane sugar, U.S. certified food color, carbonied water and citric acid (natural acid of citrus fruits).

Get busy now. Put on your thinking cap and think of a title for the picture. See the list of prizes. Read the simple rules. Send or bring your title without delayr You may win First Prize.

Rules of Contest

By "best" E understood that title which most cleverly describes the situation shown in the picture. In case of ties the full amount of the price will be given to each tying consentant. Awards will be published in this paper as soon as possible after close of the control Checks will be sent to winness immediately afterwards.

Dish Towels and Aprons

Let Them Soak Clean in Rinso.

THEY should be CLEAN, shouldn't they, all those kitchen things—aprons, towels, dusters, wash cloths etc.? But there are so many and you are so tired! Alright, let Rinso wash them. It will—every stain and speck of dirt will rinse away after a good soaking in the cleansing Rinso suds. Rinso is the new modern method for the family Rinso is the new mouern mechanists the issuing wash—but use it properly—do not pour the Rinso direct from package to tub—make the Rinso solution first as per directions on the pack-age. Then it guarantees wonderful results.

CRISP COMMENTS

Our old spring acquaintance, the northeast wind, is bound or eraste a coolness when weather is mentioned.

The old dictum that man's home is his castle receives a code jolt when liquor sleuths learn that it has been converted to an amateur distillery.

A proportion of about ten to one boys were arraigned in New York duffig the past two months, in comparison with girls, for various offenses. It would be a sad outlook for public morphity were conditions more equalized, bad enough as they are now.

The Famine is Still On

30C,000 Children will Die of Starvation unless we Continue to Supply Food up to the End of August.

W/HAT are YOU to believe about the famine situation in Russia — the idle, W unsupported statements of prejudiced papers, or the firsthand knowledge of such men as Lord Emmott, Lord Weardale and Sir Benjamin Robertson, who are devoting their time and energy to saving millions of children from starving

In February, Sir Benjamin Robertson, with the approval of the British Government, made an exhaustive survey of the famine districts and reported that help must be continued at least until the end of August.

To say that the famine is over, and that more money and food are not needed, is worse than untrue To make the relief work more efficient, three great organizations have been unified under the chairmanship of Sir Benjamin Robertson.

 The Russian Relief Fund, Chairman Lord Emmott, with whom is associated Sir Arthur Stanley, Chairman of the British Red Cross. 2.—The Friends' Relief Mission—the British Organization of the Quakers.

3.—The Save The Children Fund, with Lord Weardale as chairman.

These organizations are feeding 300,000 children in the Saratov area and are endeavoring to help some of the millions of adults who are in the direst need of food.

Will you not help these British organizations to save the helpless children of Russia from starving.

Cheques and money orders may be forwarded through your bank, the local committee, or sent direct to Sir George Burn, Treasurer, Save The Children Fund, Elgin Building, Ottawa.

NEWSPAPERS AND CRIME

In connection with the "drive" in New York against crime rict Attorney Banton said the other day—

"The help that the newspapers have rendered to this drive has been equivalent to an increase in the police force of 2,000 and a proportionate increase in my staff, and the fudiciary. The newspapers have created a sentiment in favor of the rigorous enforce-ment of the law against crimes of violence such as

ment of the law against crimes of violence such as we have not known in a generation, and they have done bids in less than two weeks' time."
The awayapers do not receive many bouquets from pub-officials, so the above is worth noting. Also, this is worth vings—Newspaper publicity is a greater ald in the detection from the public usually realizes, or than officers of the will causily admit. What is often called seasonationalism pewspaper reports of crime is more often than not contrib-ory to both the punishment and the prevention of crime—of mishment, by increasing the chances of criminals being mushment, by increasing the chances of criminals being weight to justice, and of prevention by frightening before-ind many a person who would otherwise think himself like-to escape the consequences.

IMMIGRATION SAFEGUARDS
The statement given to the press by Lieut.-Col. Amery,
who is in charge of the Empire Settlement Bill now before the
Importal Parliament, will remove some misgivings which have
isee prevalent in respect of the proposed scheme of settlement.
Col. Amery's statement was called forth by some remarks by
Clifford Sifton, in which the former Minister said, as reported. has the scheme would "dump useless, inefficient, unemployable people on Canada" and would be "the greatest crime which could be conceived against Canada." Col. Amery's explanation that no settlers will come to the Dominion under the Empire Settlement Bill unless they have been first approved by Canadian immigration agents in England, clears up a py Canadian immigration agents in England, clears up a polatia in grant to which there has been some doubt and some contingent criticism. Don no other basis could the scheme be regarded as wholly acceptable from the standpoint of Canadian interests and the necessity of Canadian control. If the maichinesy which is to be set up by the Empire Settlement Bill will bring to this country men of the class desired for the upbuilding of the country it will confer very real benefits upon the Dominion. It is important that Canada should obtain set-tiers, but it is not less important that they should be men of the right sort, and the final power of selection must be vested in servised by Canadian representatives. Complaints which seen sent to Great Britain recently from British Columbia serve to emphasize the unfortunate results of admitting people serve to emphasize the unfortunate results of admitting people with, however worthy in other respects, are unsatted by habit and training for their new environment and for the labors, often arduous and monotonous, of colonization. The failure of colonization of the wrong sort is a bad advertisement, because the complaints of these people do not disclose the explanation. As a matter of fact, the difficulties of colonization to-day are ina matter of fact, the difficulties of colonization to-day are in-comparably less than were those which were faced and over-come by the early ploneers of Eastern Canada. Those hardy settlers won success despite the presence of obstacles more for-midable Than-my with which the western colonists has to con-lead. The opportunities offered in the western provinces are such as will attract and hold the right kind of colonist, and if the Empire Settlement Bill affords the means of bringing the right men to this country, the evils anticipated by Sir Clifford right agent to the country, the evine anticipated by Sir Chindra Sifton will not arise. Sir Clifford Sifton, when in office, was a vigorous and successful administrator, and under his direction very large numbers of immigrants came to Canada. It is not recalled, however, that the process of selection was an outstanding feature of the Sifton policy, or that the Dominion es caped such troubles as the former Minister apprehends will resalt from the plan which is now proposed.

The young men of the present day should approve of the higher education for women, as it increases the chance that their wives may be able to support them. The heights of success are often climbed by fellows who is always on the level.

It is reported that Pullman porters are to be trained to entertain the passengers with singing. What's this? Another access for tipping?

Although devoutly to be desired, the reiterations of better times being on the way grows rather monotonous, especially to the man who looks in vain for work.

The Point to Consider When Buying a Used Car

A fundamental rule of good business is to know what you are buying and from whom you are buying. This rule holds particularly true when it comes to buying a used car.

If there is one place more than another where you must place above every-thing else, the integrity and financial standing of the seller and his unquestioned honor in living up to every promise made in

selling you the car, it is on a used car proposition.

We value good will above everything else. Only by giving you honest value, can we hope to retain your

The Toughest Tests that any tire ever stood

are the tests that DOMINION TIRES have to stand, right here in Canada.

From the peaks of the Rockies to sea levels on the Atlantic coast -when spring that's make the roads hub-deep in mud-on blistering asphalt when July days register 100 in the shade-on the icy roads of January with the thermometer on the toboggan-DOMINION TIRES are right up against real Canadian conditions.

They are made for Canada, by Canadians, who know Canadian conditions.

They have been tried out on every size and make of car, from the every-day business car to the big stately limousines.

DOMINION TIRES give such mileage and service that, nowadays, when motorists talk tires, the natural question is, "How do they measure up to DOMINION TIRES - the tires by which all tires are judged."

Your Car will be a Better Car with ominion Tires

THE FIGHTING WELSHMAN

fixed of the United States to enter into the Hague of the World powers must have indeed been a shade erence of the World powers must have indeed been a shat-ing blow to the gallant little Welshman, Premier Lloyd

He is a wonderful little man. But for him it is clear that He is a wonderful little man. But for him it is clear that general education of the control of t be, they are at. On the outskirts of all this the Turks and Greeks are raising Cain, the Siberian republic is quarrelling the the Japs, the Mohammedans are desperately restless in dia, the civil war is raging in China. The whole of the old orld is in trouble and nobody seems to be desperately in sorriest about getting to a more sensible state of things except

And he at home continues to be the target of attack by rthcliffe press and its allies. The London Times and other Harmsworth papers predicted the failure of the Genoa Conference each day for two months. They started a new arisis every week, with prophecies that the British Prime Minster was about to start for home, an utter failure and a sad poctacle for all to behold.

The little Welshman—or shall we say the big Welshman?

The nute wethingan—or snatt we say the use wetherman;

IMMIGRATION PROBLEMS

What kind of immigrants does Canada need to make it in to a pation of the first rank is the question that has been agitat-ing the minds of the thinkers of this country and of England for the last decade. The Montreal Herald has this to say on

"Lord Shaughnessy, back from Europe, has now joined the "Lord Mauganessy, back from Europe, has now joined the melancholy company of those who deprecate the idea of gett-ing any more immigrants from Britain. 'Scour the whole of white Europe,' he says inteffect, 'for immigrants, but don't encourage the British to come.' It was only the other day that

encourage the British to come.' It was only the other day that colleged Sition gave an address to the same effect in Toronto. Many others are talking in the same way. Boiled down, their many the same of the sam were deserting the land and crowding into the cities.

and yet of all the races in the world, none nave neen suon hardy ploneers as the British. They have pushed their way into every part of the world and everywhere have made the wilderness, blossom like the rose. This continent was conqueried and its wild lands subdued by the British. Everywhere in and its wild lands subdued by the British. Everywhere in anda the land bears witness to the glering worth of British ple as pioneers. And now we are talking of handing over birthright to Babel horder of aliens, with the inevitable is of breeding the British stock into the background in this to of the British Empire.

Is this what industrialism in Britain has brought the An Saxon race to, or are we utterly wrong in proceeding with r inigration policy on the fundamental idea that we should courage only the semi-civilized and illiterate?

CRISP COMMENTS

The only reaction we feel to an announcement that Zach cox, of Texas, has whiskers nearly five feet long is amed christiys as to what is wrong with the man in that sect his head above the high hedge.

British and Canadians kept no exact account of supplies nown from one army or the other in the areas of operation. rectification brings out this interesting, if not surprising fact, the battlefield, with its terrors, and its thunder, is not a comread to balance ledgers.

CRIME AND ITS COST

st of handling crime in Canada is sufficiently, high The cost of handling crime in Canada is sufficiently high place a vary severe strain on the tansperse of the country and calls for closs investigation and consideration. The flow of foreigness in the Canasa, with, a consequent increase in the Greenwest of Canasa, with, a consequent increase in the Asi unrestricted flow of foreigness into the larger cities of the Dominton is a grave danger. The report of the Superintendent of Faultstatistics records the fact that the average cost to the Government of securing a conviction for the commission of crime is about \$1,200. To this can be added the cost of maintaining an innaise in the postulentistics which, with dicharger contributions are the contributions of the contribution of the contributi

vision on the part of the parents, as well as indifferent educa-tion and unsuitable companionships. It will be a great mis fortune to Canada if the youthfulness in crimicality is no checked. Crime statistics in Great Britain show an increase ir 1921 over 1920, and may be regarded as a reversion to norma figures consequent upon the return to civil life of the popula tion which during the war was serving with the Forces, Juvenile offenders in Great Britain are also on the increase. Six by per cent. of the serious crimes, such as murder and robber;
with violence, in this country were committed by foreigners
whereas if their total population be taken into consideration.

Economic loss from the commission of crime is enor rocus: Fealing with crime is expensive, but its punishment is not removing its cause. If the whole question of taxation for the conviction and deciding of crime-down was more widely because the conviction and deciding of crime-down was more widely the with public would give more consideration to its serious fiest. It any case, the public would give more consideration to its serious fiest. It any case, the public should be initiated into the present measurement of helping to suppress, insofar as possible, the commission of crime by juvaniles.

A TIMELY MESSAGE

Not many true-hearted Canadians would hesitate to as Not many true-hearted Canadians would hesitate to as-sociate themselves with the message sent to Lloyd George a Genos by, the official heads of the Anglican, Presbyteria Methodist, Bapits and Congregational churches in Canada In the message the British premier is assured that the religious demonitarians mentioned have "the fullest sympathy with the aims of the Genoa conference, and pray that nothing may pre vent the harmonious co-operation of those engaged therein in their effort to secure the economic re-establishment of Eur ope, and the restoration to the world of that peace and good will among the nations which all lovers of humanity so deeply

Lloyd George needs just such messages at the pretime. In the noble fight which he has been waging at Geno:
for world-welfare he has had to encounter not only the sel
fashness and stupidity of the representatives of other nations
but also the malignant opposition of those of his own nationa ehold. His worst, most insidious foes are those who are Rousehold. His worst, most insidious foce are those who are secretly working against him at home, doing all they can to thwart his aims and poison the public mind against him. It is well that, he should have tangible evidence that in Canad-the nature of his aims is understood and that his efforts are aspreciated at their real worth, whether they succeed or fall.

And oh, the flavor! Delicately toasted flakes with an appetizing crunchy crispness.

Try a bowl of Post Toasties at breakfast with cream or good milk. It's a treat, and especially so if you add sliced bananas, or strawberries or some cooked fruit. There are many servings from one package, and they're good to the last flake.

Tell the Grocer the corn flakes you want are called Post Toasties, and remind him that they come in the Yellow and Red package, then you'll be sure to get what you desire - the perfect corn flakes.

CELEBRATING THE EMPIRE

The little booklet issued annually by the Ontario depart ment of education for the guidance of school teachers in the celebration of Empire day is smaller this year than usual. No celebration of simpire day is smaller uns year until useas.

The doubt considerations of economy have influenced the depart ment in their curtailing the guide, and perhaps it was not ne egary to prepare on this occasion so extensive a statement as it former years. It is pointed out, indeed, in the opening article that the previous booklets should still be available in school libraries, and teachers referred to them; in addition to which it is the property of suitable material may be found in—readers, histories, etc. This year, "it is considered sufficient to outline a program for the day which may be arranged or amended by the teachers to sui day which may be arranged or animatory the control of their particular schools." That program aims to impress of the pupil's mind the influence of the British empire upon work civilisation and the importance of Canada's place in the empire This can best be done by essays or addresses, it is suggested The importance of good citizenship is to be emphasized, and the exercises of the day should include a talk on civics.

the sexrelass of the day should include a talk on civies.

Among the special articles are Fig Day For Canadians by Mr., W. Everard Edmonds, reprinted from the Canadian Magazine of January last; an extract from president Mard ing's address at the opening of the Washington Disarmanmen conference; extract from public addresses of Sir John A. Mac domaid and Sir Wilfrid Laurier, and a brief sich NA. Mac domaid and Sir Wilfrid Laurier, and a brief sich year to the Wilfrid Laurier, and a brief sich year to the tendence of the sich properties of the sich of the sich properties of the sich propertie lot the vitality of the spontaneous message spoken from th most the vitatiny of the apontaneous measage apoken from the heart. This year there is plenty of material for the teacher to choose from to be found in recenf events and international movements move pending. The empire is playing a great par in world affairs, and in every domition on Tuesday next the application of the day will be borne in on the consciousness of the rising generation. It is an inspiring thought that every where where the Union facet lines the winded of the vanue will the rising generation. It is an inspiring thought that every where where the Union Jack flies the minds of the young will be directed to the contemplation of the rich heritage which i libits—how it came into their possession, and the responsibil ity which rests in their hands of keeping it inviolate.

Proclamation

Clean-up and Paint-up and Keep It Up!

Men, Women and Children of Bel

The ce-operation of all our citizens is needed to make of Belleville the cleanest and most beautiful city on the American continent. This splendid ambition can be realized if wy all plan together and work together.

Therefore, with the hearty approval of our Cwic Or-nizations and of our far-seeing and zealous citizens I reby proclaim the week of

MAY 22 - 29

as the opening week of a

Clean-up and Paint-up Campaign which will undoubtedly result in many advantages to our community life in safeguarding HEALTH, presenting THRIFT, furthering FIRE PREVENTION, relieving UNEMPLOY MENT, attendantly CIVIO PRIDE, and in Belle-ville, our "Home and City Beautiful."

Yelineeraly trust that every householder and properly owner will enter into the real spirit of this campaign. Belleville is now on the high-road to expansion and progress. Give improvements of all kilids should be pushed

This week marks the beginning of a real campaign of persistent and constructive effort in cleaning up and keeping it up. In this worthy movement I urge every clicing to do his or her part to make Befleville clean, healthy, progressive, safe and beautiful. CHAS. HANNA, Mayor.

Clean on wash cay.

Just let them soak themselves perfectly clean with
Rinso—the new scientific
form of Bosp in granules.

Do not put the Rinso
direct from the package
into the tub. Make the
Rinso liquid first.

Mix half a package of Rinso in a little cool water until it is like cream. Then add two quarts of boiling water and when the froth subsides put it in a tub of cool or lukewarm water and you will have enough for a batch of clothes. If the clothes are extra soiled, use more Rinso.

Dear Sira:

mants that were put out by the Garada Steamhip when the two put out by the Garada Steamhip when the ships malled. Of later years, however, large copy has been run in the daily newspapers in those cities that were fairly accessible to points of sailing, telling of the many attractions that were offered in a trub by beat.

Right through the season for the past fow years, boat trips have been most popular. 1920 was the finest passenger year the Company ever had. 1921, despite the fact that business was so unsettled, shows but a 7% decrease in passenger traffic over 1920.

Time after time, ships for special ornises, as, for example, those from Montreal to the Sagmeny and from Montreal to Hewfoundiand, have been filled through advertising in the dailies. Next year, as in the past few years, the daily newspapers will be the backbone of this Company's advertising.

With best wishes, I am,

Yours very truly.

When Medical Men Say "Chiropractic"

MONDAY HEALTH TALK No. 72 By WM. P. REDICK, D.C. Ph. C.

wywm.P. REDICK, D.C. Ph. C.
When medical men advisate chiroprenetic is when the
history of the casic is one that indicates an obviously spinal
cause for the ainlennt. Usually the case has an activate
nome kind which directly affected the spine.
But the fact about the spine is that it must plove our
motion of the body. In the living body it is a thing of the
most feathfully, and the venty-four joint making of the
stands flatibility, and the twenty-four joint making of a
easily disordered by the every day activity of life.

It is not necessary to suffer a severe accident to displace a joint of the spine, and when this happens it causes disease in the organ thus deprived of a normal amount of nerve impulse.

Sturdiness, Power, Economy and Beauty have always been characteristic of McLaughlin-Buick cars just as stability, and honest manufacturing ideals have always been associated with McLaughlin institutions.

This year's McLaughlin-Buick is a better car, with more power and greater inherent motor car value than any previous models, while the builders of Canada's Standard Car occupy the premier position among manufacturers of Canadian-built motor cars.

Better cars are being built and McLaughlin is building

Around the British Empire

The New Improved

At the moment you read this paper; at every moment of your day and night; on some part of the British Empire or on British ships sailing from land to land, the sun is rising and men are starting another day rightly with their New Improved Gillette Razors.

The breadth of the international success of the New Improved Gillette is as difficult of realization as the immensity of the Empire on which the sun never sets.

Everywhere the scene is very much the same—a mirror, a lather, the perfect razor and a happy man.

and lawns in order from an inherent love of the beautiful and not merely because they wish to impress the tourist. How-ever, it is a fact that visitors to the city are greatly smitten with its cleanliness and carry away with them lasting thoughts of civic comeliness. Such neatness reflects the personal charac-teristics of the inhabitants. For this reason our Clean Up and Paint Up Campaign serves the double purpose of satisfying our own aesthetic sensibilities and preparing for the critical scru-tiny of the stranger enjoying our hospitality. Belleville wel-

mes the inspection, no matter how searching.

'The success of the Clean Up and Paint Up Campaign, in entirety, lies in the wholehearted manner in which the community itself adopts its various provisions. The application of paint and varnish here and there, the delving into forgotter corners with spade and hoe, the liberal use of rake and broom corriers with spade and hoe, the liberal use of rake and broom exitability produce wonderful results. Slovenilines is to be tolerated so more in civic appearance than in personal few to the control of the product of

weeds on vacant lots and endeavor to compel absentee owners to mitigate the dandelion nuisance, which often overwhelms a whole block from one uncared-for piece of property.

The Clean Up and Paint Up Campaign is a challenge to civic pride, a challenge that Belleville has never yet evaded.

Canada is feeding 75.000 Russian Children

The money and food, which the people of Canada in their generosity have contributed to the Save The Children Fund, will be sufficient to feed Seventy Fundamental Russian Children.

In addition to these, the British Save the Children Fund—with which the Canadian Fund is associated has undertaken to care for 50,000 more, making a total of 300,000 children to be fed until the end of August, and perhaps throughout the winter.

You can understand the very urgent need of more money to continue the wonderful work that we have undertaken. Will you not help?

Cheques and money orders may be forwarded rough your bank or local committee, or sent direct Sir George Burn, Treasurer, Save The Children and, Elgin Building, Ottawa.

The Government Reduces Tax on Small Boxes of Matches!

The new Government Budget reduces the tax on all boxes containing less than 100 matches.

For example, on a box similar to the Eddy Safety and the Eddy Sesqui, each containing approximately 50 matches, the tax is reduced from one cent to halfa-cent, or \$7.20 per ten-gross case.

The many smokers and other consumers who find the small boxes of Eddy's so convenient will, therefore, benefit by this reduction in tax on these boxes.

Ask for Eddy matches. Look for the name on the box.

The makers of "Kayser"

Every lady knows "Kayser" silk hosiery. Here is a word of advice from the manufacturer of these famous Made in Canada. silk stockings:-

"Silk stockings should be washed every night to remove perspiration which is the enemy of Silk. There is nothing better for this than Luz."

Lux with its generous suds is ideal for the quick thorough washing silk stockings require. The thin, satin-like flakes of Lux, which are made by our own exclusive process, dissolve in hot water as quickly as snow. There is nothing like Lux - it stands supreme as the only product, eminently suitable for washing silken hosiery. and garments, or other fine articles of wear.

SHORT-CUTS TO ECONOMY

The values now offered by dealers of the Dominion selling Firestone Tires are outstanding examples of today's low cost of dependable mileage.

In the Firestone plants, scientific organization and unusual equipment have utilized every short cut to economy and reduced waste to the minimum.

This is why you get more in Firestone Cords without additional cost. The mileage records users are reporting is sound proof of this.

Specify Firestones and be satisfied with nothing else if you want Most Miles per Dollar and complete satisfaction.

CLEAN SHIRT PSYCHOLOGY

There always is a certain psychological effect in a cles There always is a certain psychological effect in a clean shirt. A hath and a shave tone up a man's self-respect. Dirt and the Beast go handiin hand. The more beastly the creature it, the more dirty he is. If all men are born free and equal, this equality is lost when the bath tob is neglected. A real upstanding man is a clean man.

As with men, so with cities. A clean city is a progressive likeable place. It stands four square to the world, unashamed. The dirty city is bound to go backward, materially and mor-

We are going to venture something more. Now that Belleville has had a good cleaning, the work is not going to stop there. There are going to be forward steps toward the City there. There are going to be forward steps toward: the City Beautiful. The men may hang back, but the men are only the lesser half. We expressed our opinion some weeks ago that the town was going to have a good clean-up because The Wo-man with the Broom is back of the movement. This formid-able, morker is not going to stop now. If the men think it is all over now. they have another guess coming.

an knows the psychology of the clean shirt! A FACTOR IN CIVILIZATION'S PROGRESS

If a study were made of the many interpretations of Can ada and of sections thereof that Europeans have made, it would be found, we believe, that not a few of these touring critics base their judgments of the civilization attained by erities hase their judgments of the civilization attained by states and towns, so far as externals are indicative, on the state of the houses and outbuildings they saw. Properly paint ed they at least indicated thrift and some eye for color values

and the rudiments of esthetics.

What the sensible, persistent use of paint will do in cour try or city can be noted by any automobilist. It adds value it properties when sales are forced or voluntary. It saves wastage otherwise inevitable because of the elements. It enables persons responsible for family standards to come nearer their It tones up the self-respect of neighborhood, town

me sections of this Country have been rather slow to learnth eviction of this Country have been rather slow it clears the relation of paint to particisim and to, priete; but, taking the country as a whole, it sees this close connection with more keriaturi ban it did a decade ago. The injuriescent production of materials used in the making of paint is so much paragrady than usual that, it is being credited chiefly to the rap-lely-developing campaign for community improvement which has for its along. "Clean Up and Paint Up". So surely and practically does organized offort for civic good register good in the control of the decade of the decade of the control of the con skeptical of Philistines!

The veritable glitter of precious gems-radiance of unusual beauty—that is the charm the exclusive Holmes & Edwards hand-burnished lustre will bring to her table.

And Holmes & Edwards yields the lasting satisfaction which comes only from the generous use of sterling silver. It is sterling silver's only competitor for wear.

In SILVER-INLAID, solid blocks of pure silver are set in on the back of the bowl and handle before plating, and in SUPER-PLATE, a heavy extra plating of silver is given to protect these points against wear.

High-class jewellers will show you the beautiful Jamestown Pattern, strikingly simple and artistic—as well as table appointments such as flower baskets, casseroles, pie plates, cake and bread trays—as the same high quality.

The world will never forget the heroism and sacrifice of the millions who took part in the preservation of-civilization and the sacred cause of human liberty. Just now, our supreme duty should be to take the best of care of the men and their dependents who made the sacrifices and who with their blood wrote their heroic devotion to the cause of humanity and country.

A SIDELIGHT ON PROHIBITION

The Morning Post of London, England, cannot be charged with any excess of sympathy for prohibition and its advocates and yet it has just provided one of the most potent arguments in favor of a drastic restriction of the liquor traffic.

It has called attention to the gross and scandalous pro-

fiteering of the saloon keeper or publican in England, as sh by the fact that is some cases he has been making a profit of 129 per cent. In one place in South London a licensed house which has been rented on a short lease at \$1,000 a year change. ed hands for \$85,000, a clear indication of a very profitable business. Here is another instance which tells its own story When the excise duty on beer was increased by near-

ly three dollars a barrel three or four years ago, publicly three dollars a barrel three or four years ago, public-ans were permitted to add twopence per pint to the retail price across the counter. With one accord "The Trade" declared that the imposition of such a heavy additional duty meant ruin to them. So gulled were the general pub-lic by the crocodile tears shed on that occasion that no one took the trouble to ascertain what the new duty amounted to on a single pint of beer, which was only a halfpenny, and on this publicans were legally entitled to net a pro-

Although the war has been at an end for relative three years
for the profits on hear and spirits are still incominately large.
The sabon keepers are obtaining a profit of 129 per cent, or

closes its article. Is it not enough to make us in Canada profoundly thankful for prohibitions.

The New Special 6-55 Sport-Touring

A patrician motor car with every appointment found in the finest automobile— And, with all this—the certainty of McLaughlin-Buick performance, sturdiness and power.

The Special Sport-Touring is built in response to the demand of the motorist who seeks McLaughlin-Buick's reliability with the intimate comfort and refinement of the sport design.

remnement or the sport comegn.

No detail of convenience has been omitted. No effort has been spared to include every comfort and every appointment that could be sought in any motor car. The rugged, powerful, McLaughlin Buck driven chaesis given it the speed, endurance, and smoothness

that make touring a pleasure and not an unce

adventure.

The Special Sport-Touring is finished in dark
McLaughlin-Buick Orriford Lake with wheels to
match—which with the beautiful trimming, binding
and finish give this special model its tailored appearance. Nominally four passengers are accommodated
in the roomy body but five can ride.

The demand for this handsome model at the remark-ably low price will tax factory production to the limit. Consult the nearest McLaughlin-Buick dealer for detail apacifications. Now in production. June delivery.

ENGLISH-SPEAKING UNION

There will be beld this month in New York the first convention of h-speaking Union of America, the object of which is to promote greater friendship between English-speaking people wherever they are found in the world. The movement is not national, but universal. All who speak the mother tongue are eligible for membership in the asaccistion. The union was incorporated in November, 1920, and now has been branches through the same branches through the s ohes throughout the whole continent. It was inspired by the British English-speaking union, which was established on July 4, 1918, the American society is not connected in any way with the British apt insofar as the two are striving after common objects and workin the interests of a single ideal.

The mysterious but very potent part which language pla ng individuals and peoples is well recognized. There cannot well be any seep or perms ment estrangments between races nourished on the same Sterature and sharing the glories of a great tradition. The movement however, is in no sense a propagandist movement. There are no axe to arind, no ulterior motives to be served. One great thought only in spires the union—the essential identity of sentiment permeating the of all who employ English as their mother tongue. The richnes of our great heritage is emphasized, and the crime of provok nitting discord among the kindred is exposed. Such a society, imbues with such sims, is bound to make for good.
